DETAILED ACTION

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of said prior art which teaches an exposure apparatus claimed in the following (in particular the underlined limitation in combine with other limitation):

temperature detector for detecting an ambient temperature;  
a plurality of converters for converting input grayscale data into corrected grayscale data so as to correct for nonlinearity of exposure density;

an exposure member for performing grayscale exposure on a photosensitive material based on said corrected grayscale data; and

a selecting member for selecting an appropriate one of said converter in accordance with said ambient temperature detected by said temperature detector, wherein

said plurality of converters are set up so that each range of amount of exposure light is divided into substantially equal regions corresponding to a temperature region to be covered by each of said plurality of converter.

1. Kuwabara (5668589) discloses a thermal recording device for recording an image or other information on a thermo sensitive recording medium with a laser beam

emitted from a laser beam generator. Kuwabara fails to specifically address the claimed invention.

2. Katakura (2002/0036757) discloses an image reading apparatus and more particularly, to an image reading apparatus in which images recorded onto a photosensitive material are read by reading light from the photosensitive material in a conveyed state. Katakura fails to specifically address the claimed invention.

3. Ito (2003/0214570) discloses a thermal developing apparatus using a heat treatment device for carrying out a heat treatment for a thermal developing recording material to be heat treated and utilizing a dry material over which a wet process is not carried out.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
